

## LIST OF TABLES

|   |    |
|---|----|
| Table 1. Alaska's forest inventory by region and forest type.....   | 2  |
| Table 2. Distribution of 1995 harvest by species and grade for Southeast Alaska. ....   | 5  |
| Table 3. Labor costs in the logging and sawmill sectors in Alaska and the PNW 1998.....   | 9  |
| Table 4. Comparison of key demographic factors between Japan and US. ....   | 17 |
| Table 5. Alaska's total solid wood product exports by destination (US \$ millions). ....  | 25 |
| Table 6. Alaska's softwood log export volume by destination (1,000 cubic meters).....   | 25 |
| Table 7. Japanese imports of Alaska wood products, by product type, 1991-1998 (cubic meters). ....  | 30 |
| Table 8. Post and beam construction uses by species. ....   | 33 |
| Table 9. Description of species and end-uses of wooden structural components in Japanese post and beam construction. ....   | 34 |
| Table 10. Japan's housing starts by type, 1988-1999.....  | 51 |
| Table 11. Japan's softwood lumber import volume by source (1,000 cubic meters). ....  | 53 |
| Table 12. Japanese imports of imported wooden homes. ....   | 58 |
| Table 13. Suppliers of imported wooden homes into Japan, 1998. ....   | 58 |
| Table 14. End-use applications for imported and domestic log homes in Japan. ....   | 58 |
| Table 15. Number of imported and domestic log homes built in each prefecture, by floor area (1998). ....  | 59 |
| Table 16. Largest log homebuilders in Japan, 1998. ....   | 60 |
| Table 17. Korea's total forest product imports, 1992-1998 (US \$ millions).....   | 65 |
| Table 18. Korea lumber production by species (1,000 cubic meters).....  | 66 |
| Table 19. Lumber end use markets by product, 1997.....  | 66 |
| Table 20. Softwood lumber imports by country of origin, 1992-1998 (1000 cubic meters). ....   | 67 |
| Table 21. US softwood lumber exports to Korea, by species 1992-1999 (cubic meters). ....  | 67 |
| Table 22. China's softwood log imports by country origin, 1995-1998 (cubic meters).....   | 71 |
| Table 23. China's softwood lumber imports by country of origin, 1992-1998 (cubic meters). ....  | 73 |
| Table 24. Leading US softwood lumber exports to China, 1992-1999 (cubic meters).....  | 73 |
| Table 25. US softwood lumber exports to Europe, by species (cubic meters).....  | 76 |
| Table 26. Leading European destinations for US western red cedar, 1992-1998 (cubic meters) ....   | 77 |
| Table 27. Leading destinations for Canadian western red cedar 1999 (cubic meters).....  | 77 |
| Table 28. Leading European destinations for US yellow cedar, 1992-1998 (cubic meters).....  | 78 |
| Table 29. Leading destinations for Canadian yellow cedar (cubic meters) ....  | 78 |
| Table 30. Uses for American softwoods in the UK (1,000 cubic meters) ....   | 79 |
| Table 31. Approximate prices for lumber used in the UK decking market (US\$/m <sup>3</sup> ).....   | 80 |
| Table 32. Estimated square footage of various residential siding materials installed in 1994-1995 in the Puget Sound market, market share, and estimated share that the Puget Sound market represents for each residential siding material nationally ..... | 82 |
| Table 33. Danish housing starts, 1980-1998 (1,000 units) .....  | 83 |
| Table 34. Danish Expenditures on residential construction and repair and remodel, 1980-1997.....  | 83 |
| Table 35. US softwood lumber export volume to Denmark, 1992-1999 (cubic meters). ....   | 84 |
| Table 36. Germany's softwood lumber imports by source (cubic meters).....   | 85 |
| Table 37. US softwood lumber exports to Germany, 1989-1999 (cubic meters) ....  | 86 |
| Table 38. German window production by material, 1993-1000 (million units) ....  | 88 |
| Table 39. German softwood lumber imports (cubic meters) .....   | 88 |
| Table 40. German window scantling prices (deutchmark per lineal meter) .....  | 89 |
| Table 41. Retail buyers groups in Europe's leading importing countries, 1999.....   | 90 |

## LIST OF FIGURES

|   |    |
|---|----|
| Figure 1. Inventory results of the log grades in the Tongass National.....  | 3  |
| Figure 2. Alaska timber harvest volumes and projections by ownership under the medium demand scenario, 1990-2010 .....                          | 6  |
| Figure 3. Timber harvest volumes for the Tongass under various demand scenarios .....   | 7  |
| Figure 4. Sawmill production capacity, lumber production and the Tongass timber supply for Southeast Alaska ...                                 | 8  |
| Figure 5. Harvest costs in Southeast Alaska, British Columbia, and the Pacific Northwest, 1985-1995 .....                                       | 10 |
| Figure 6. Manufacturing costs in Southeast Alaska, British Columbia, and the PNW, 1985-1995 .....   | 11 |
| Figure 7. Total lumber production costs (labor and production) in Southeast Alaska, British Columbia, and the Pacific Northwest, 1985-1995..... | 12 |
| Figure 8. Total costs of lumber production (with stumpage) in Southeast Alaska, British Columbia, and the Pacific Northwest, 1994 .....         | 12 |
| Figure 9. Leading primary processed wood products from Alaska to all destinations, 1989-1998 .....  | 14 |
| Figure 10. Softwood log export volume and revenue exports from Alaska, 1986-1998 .....  | 15 |
| Figure 11. Leading secondary processed wood product exports from Alaska to all destinations, 1989-1998 .....                                    | 15 |
| Figure 12. Comparison of US and Japan housing starts, 1965-1999.....  | 17 |
| Figure 13. Japanese housing starts since 1965 based on structural material used .....   | 19 |
| Figure 14. Number of total housing starts, by source of mortgage funding .....  | 20 |
| Figure 15. Leading primary processed wood product exports from Alaska to Japan, 1989-1998.....  | 26 |
| Figure 16. Average price for hemlock export logs by grade.....  | 27 |
| Figure 17. Average value for Alaska log exports to all destinations by species .....  | 27 |
| Figure 18. Alaska softwood log export volume to Japan by species, 1991-1998 .....   | 28 |
| Figure 19. Japanese wholesale log prices (Yen Price Index, Jan 1998 = 100) .....  | 29 |
| Figure 20. Japanese softwood log imports by source, 1986-1997 .....   | 29 |
| Figure 21. Japanese imports of Alaska softwood lumber by species, 1985-1999. ....   | 30 |
| Figure 22. Japan prices for kiln-dried hemlock and SPF dimension lumber (1994-2000.....   | 52 |
| Figure 23. Annual housing starts using the 2x4 and rationalized post and beam systems.....  | 52 |
| Figure 24. US softwood lumber export revenue to Korea, 1989-1999 .....  | 63 |
| Figure 25. Lumber imports and domestic production, 1984-1997.....   | 66 |
| Figure 26. China's total imports of wood products, 1992-1997.....   | 70 |
| Figure 27. US wood product exports to China, 1989-1998 .....  | 70 |
| Figure 28. China's log imports by type, 1993-1999.....  | 72 |
| Figure 29. China's domestic production, consumption, and imports of softwood logs, 1993-2000 .....  | 72 |
| Figure 30. Average monthly US lumber decking prices from January 1992 - October 1999.....   | 81 |
| Figure 31. German housing starts, 1991-2000.....  | 87 |
| Figure 32. Estimated potential production of FCS-Certified timber, 1999.....  | 91 |

## LIST OF PHOTOS

|           |   |    |
|-----------|---|----|
| Photo 1.  | Alaska Sitka spruce waney cants stored at the Tokyo City Lumber Terminal .....  | 36 |
| Photo 2.  | Alaska Sitka spruce waney cant .....  | 36 |
| Photo 3.  | Sitka spruce waney cants at a shoji manufacturer in Japan .....   | 37 |
| Photo 4.  | Logs at a small sawmill in Kanuma, Japan that specializes in custom cutting Sitka spruce .....  | 37 |
| Photo 5.  | Rough sawn spruce boards are stickered prior to being air dried .....   | 38 |
| Photo 6.  | Kiln dried Sitka spruce lumber cut to the 38mm by 135mm dimension favored by shoji<br>manufacturers .....   | 38 |
| Photo 7.  | Rough cut Sitka spruce lumber stacked for air drying.....   | 39 |
| Photo 8.  | Sitka spruce is the primary species used in this shoji manufacturing company .....  | 40 |
| Photo 9.  | Older production machinery means that manufacturers are reluctant to change the mix of species<br>they use .....  | 40 |
| Photo 10. | Example of a shoji door manufactured from Sitka spruce.....   | 41 |
| Photo 11. | Interior view of a Japanese home utilizing shoji components manufactured from Sitka spruce .....  | 42 |
| Photo 12. | Interior view of a Japanese home utilizing shoji components manufactured from Sitka spruce.<br>Note wide ceiling panels.....  | 43 |
| Photo 13. | Interior view of a Japanese home utilizing shoji components manufactured from Sitka spruce .....  | 44 |
| Photo 14. | Interior view of a Japanese home utilizing shoji components manufactured from Sitka spruce .....  | 45 |
| Photo 15. | Interior view of a Japanese home utilizing shoji components manufactured from Sitka spruce .....  | 46 |
| Photo 16. | Interior view of a Japanese home utilizing shoji components manufactured from Sitka spruce .....  | 47 |
| Photo 17. | Interior view of a Japanese home utilizing shoji components manufactured from Sitka spruce .....  | 48 |
| Photo 18. | Interior view of a Japanese home utilizing shoji components manufactured from Sitka spruce .....  | 49 |
| Photo 19. | Top view of a modular outside decking system being sold in Japan. The wooden decking is<br>manufactured from Jarrah, a durable wood species imported from Australia ..... | 50 |
